### **STATE OF CALIFORNIA ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION**

#### **Notice of Staff Workshop**

#### **REPORT TO THE LEGISLATURE ON THE FEASIBILITY OF REAL-TIME, CRITICAL PEAK AND DYNAMIC PRICING TARIFFS**

The staff of the California Energy Commission will conduct this workshop to obtain public comment on the draft of a report to the Legislature on the feasibility of real-time, critical peak, and dynamic pricing tariffs in California.

**THURSDAY, JUNE 19, 2003**

10:00 a.m.

HEARING ROOM B

CALIFORNIA ENERGY COMMISSION

1516 Ninth Street

Sacramento, California

(Wheelchair Accessible)

#### **Background**

Senate Bill 1976 (SB 1976, Torlakson, Chapter 850, Statutes of 2002) requires the Energy Commission, in consultation with the California Public Utilities Commission to report on the feasibility of real-time, critical peak, and other dynamic pricing tariffs in California. This report to the Legislature and Governor will investigate how these tariffs could either reduce peak demand or shift peak demand to off-peak periods.

#### **Purpose of the Workshop**

At this meeting, the Energy Commission staff will present and discuss the draft of a report to the Legislature on the feasibility of real-time, critical peak, and dynamic pricing tariffs. This report is posted on the Commission's website and is also available by contacting Donald Kazama, the Report Manager (contact information given below). Based on comments received at this workshop and consultations with the California Public Utilities Commission and the California Power Authority, the Energy Commission staff will revise the draft report for the Commission to consider.
